

WASHING MACHINE RENTAL ADVANTAGES

FOR BUSINESS

✓ FREE INSTALLATION

When you take out a washing machine rental contract, there is no up-front cost for installation. You just pay the same hire fee every month.

✓ FREE SERVICING AND MAINTENANCE

A washing machine rental agreement gives you the security and peace of mind of all servicing and maintenance costs being met by your contract provider, covered under your fixed monthly hire cost.

✓ NO INITIAL PURCHASE COST

A great advantage of a serviced commercial washing machine hire agreement is that there is no purchase cost either when you buy your first machine or when it comes to need replacement.

✓ NO REPAIR OR REPLACEMENT COSTS

With your serviced washing machine hire agreement, if ever the machine breaks down, your service provider will cover the cost of repairs and, if necessary, the outright replacement of the machine with a new one, saving you huge sudden unexpected costs.

✓ NO DEPRECIATION

When you don't own the commercial washing machines you use, your bookkeeping and year-end accounting will be simplified by the fact that there is no need to calculate and adjust profits for depreciation.

✓ TAX-DEDUCTIBLE EXPENSE

Commercial washing machine hire is an expense you can deduct from your pre-tax business income on an ongoing basis, as it's a fixed business cost.
